

MANAGER OF UTILITIES

REPORTS TO: Director of Development, Engineering, & Operations
REVISION DATE: June 2020
STATUS: Permanent Full Time

SUMMARY

Reporting to the Director of Development, Engineering, & Operations, the Manager of Utilities is responsible for managerial oversight of the Utilities Department which includes freshwater treatment and distribution, wastewater treatment and collection, and solid waste collection services. The Manager is responsible for planning, organizing, coordinating and directing work assignments, providing staff training and support, development of logistics and strategies to ensure efficient use of monetary, equipment and materials resources, and providing input into capital and operating budgets.

KEY DUTIES AND RESPONSIBILITIES

1. Leads and manages resources within the Utilities Department including staff, costs, equipment, contracts, and materials to deliver program services within the approved budget, operating policies, procedures and applicable legislation.
2. Oversees and provides management oversight to all functional areas of the Utility Department including infrastructure failure response, training, information technology, communication, building and equipment life cycle maintenance and replacement, pre-planning/inspections and other duties as required.
3. Examines and recommends efficiencies or changes to service delivery methods with the goal of improving our service and aligning with industry established best practices.
4. Coordinates and prepares reports and presentations to Council and other agencies as required.
5. Provides active leadership and manage performance in a unionized environment.
6. Assists in the development of the Utilities Department operating and capital budgets.
7. Participates in the development of department strategic plans, goals and objectives.
8. Ensures positive interaction with taxpayers, the general public, staff at all levels within the Municipality, the media, other municipalities, senior government departments and any other group with potential interactions with the Municipality.
9. Takes a leadership role with regard to Municipal Emergency Preparedness including incident command in situations of natural or man-made threats. Will be expected to

take an Emergency Management role such as Deputy Operations Chief in the EOC/ECC when activated.

10. Liaises with representatives of neighboring municipalities to ensure adequate mutual aid agreements are in place to mitigate major incidents.
11. The duties and responsibilities outlined above are representative but not all-inclusive.

KNOWLEDGE, ABILITIES AND SKILLS

- Knowledge of water and wastewater treatment systems and practices.
- Knowledge of water and wastewater distribution and collection systems.
- Knowledge of Alberta Environment and Environment Canada testing and reporting procedures.
- Knowledge of the safe work practices involved in the handling and use of hazardous materials.
- Knowledge of emergency preparedness and response.
- Excellent interpersonal and communication skills, both oral and written, to interact with public, staff, and external agencies.
- Excellent conception and analytical skills, with strong facilitation and influencing skills.
- Skill in the application of lab analysis procedures and practices.
- Must be able to maintain confidentiality.
- Proficiency with Microsoft (Outlook, Word, Excel), SCADA and GIS.
- Ability to work independently with minimal supervision and within a team environment.
- Ability to adapt to a demanding and dynamic work environment.
- Ability to interpret, develop, implement, and adhere to organizational policies and procedures.
- Ability to deal effectively with conflict resolution.
- Time and project management experience.
- Ability to be a positive leader and maintain strong morale with staff.

COMPETENCIES AND BEHAVIOURS

1. Leadership Skills: Provide leadership while guiding, supporting and mentoring staff. Act as a positive role model with the ability to communicate potential opportunities to departments while empowering staff and incorporating the views of others.
2. Management Skills: Motivates, directs and evaluates staff while planning overall workforce. The ability to manage effectively while maintaining a friendly approachable attitude.
3. Financial Management: Leads with a strong sense of service delivery while integrating financial planning, budgeting and management reporting.
4. Communication Skills: A clear, concise and positive communicator who is able to build trust through presenting ideas clearly while effectively listening to others.
